

German Summer Math Camp

Mathttic way to have fun with Math

German School Campus, 1931 West Coast Hwy, Newport Beach, CA 92663

Email: principal@GermanSchoolcampus.com; Tel: (949) 285-0829

Come join our Math Summer Camp filled by interested children like you!! If you are between 7 and 12 years old (2nd-7th grade) and curious about Math and how it touches our everyday lives, even more so in the age of computing, then this Camp is for you!!

- * Metrik System
- * Algebra Thinking
- * Geometry and Angles
- * Russian Math tactics

Our Summer Math Camp is a social environment where participants engage in learning math through games, stories or hands-on activities. To reach these goals, participants partake in problem-solving, learning tricks to traditional mathematical operations and, of course, discussion, taught in English and German.

Michele Scofield-Hunziker graduated from UCLA with a degree in Business Economics, followed by an MBA. An international career led her to Switzerland, where she met, married and later became a mother. She took intensive courses in pedagogic and didactic at the University of Freiburg and founded a Math Circle. Since, then she has given Summer Math Camps in Switzerland and now for the first time in Newport Beach.
