# SUMMER CAMP

An Unforgettable Experience !

## Monday, June 12th - Friday, June 16th

9.00 am - 4.00 pm ($499)

9.00 am - 1.00 pm ($299)

**Students K - 12th grade**

Awareness of environmental issues and sustainability shapes mindful future adults and regard for our planet's resources.

Visiting the Back Bay Science Center, students discover the vital role of water in ecosystems, sparking curiosity and sustainable future.

The sun is the central source of energy in our solar system and teaching children to build a solar car is just one valuable way to educate them for a better future.

Students learn about the climate and its impact on renewable energy sources like wind power, or building a hydro car.

**STEM** = **S**cience / **T**echnology / **E**ngineering / **M**athematics

**Immerse in a memorable summer camp experience, where the children will boost the German language while enjoying a week of captivating science adventures!**

One-hour lunch break supervised on campus.
Educational material is included.
